

Understanding the Trade-offs

Kien Bui

DevOps & Platform Engineer

Consultants answer:

- It depends

Time

Cost

Complexity

Memory

Efficiency

Possible Trade-offs

Queuing

Partitioning

Caching

Compression

Queuing

Decouple

Scale independently

Acceptable delay

Time vs efficiency

Data Partitioning

Complexity/consistency vs time

RDBMS vs NoSQL

Distribution

Maintenance

Caching

Cache

Replica

CDN

Memory/consistency vs time

Compression

Code assets

Files

Time vs memory

Globomantics Trade-offs

Review Trade-offs

S3 website

ECS

S3

RDS Multi-AZ

DynamoDB

CloudFront

Possible Future Updates

Compression
reduce image size

Queuing
analyze images

Possible Trade-offs

Queuing

Partitioning

Caching

Compression

Build performant architectures on AWS!
